

Amyris Completes Sale of Vitamin E Royalty to DSM

Exiting Vitamin E Simplifies Amyris and Improves Predictability

EMERYVILLE, Calif., April 18, 2019 (GLOBE NEWSWIRE) -- Amyris, Inc. (Nasdaq:AMRS), a leader in the development and production of sustainable ingredients for the Health & Wellness, Clean Beauty and Flavors & Fragrances markets, today announced the sale of its Vitamin E royalty agreement to Koninklijke DSM N.V. (Royal DSM) (AEX:DSM.AS). This agreement assigns Amyris's rights to Vitamin E royalties to DSM in exchange for total consideration of approximately \$57 million. In addition, DSM and Amyris have agreed to a further manufacturing cooperation for Amyris products at DSM's Brotas facility that provides additional capacity and lower cost of goods sold with an expected approximate aggregate benefit of \$30-\$40 million over the next three years. The expected economic benefit of both agreements to Amyris is approximately \$90 million.

As a result of this agreement, Amyris has now fully exited the Vitamin E business and is focused on driving commercial growth in the major markets it is already successfully disrupting: flavor and fragrance ingredients, skincare, sweetener, and most recently, entry into the cannabinoids market. These are markets where Amyris is demonstrating market leadership with its products, brands and resulting underlying growth and margin.

"We are pleased to have executed this agreement in the timeframe expected and to have secured lower-cost manufacturing while we seek to bring our own production facility online in 2020," said John Melo, President and CEO of Amyris. "As we said, the economics of this agreement are superior to those offered under the deal we elected to forego, and ensure our ability to deliver continuous supply to our customers at a competitive cost."

Terms of the agreement with DSM will be more fully disclosed in a Form 8-K to be filed later this week with the Securities and Exchange Commission, available free of charge at sec.gov.

About Amyris

Amyris is the integrated renewable products company that is enabling the world's leading brands to achieve sustainable growth. Amyris applies its innovative bioscience solutions to convert plant sugars into hydrocarbon molecules and produce specialty ingredients and consumer products.
